	%	%	%
January - March 2008	37	30	33
March - April 2008	36	33	31
May - June 2008	32	39	29

These surveys were conducted on the telephone by trained interviewers among voters throughout New South Wales. Telephone numbers and the person within the household were selected at random. The data has been weighted to reflect the population distribution of New South Wales. The latest survey is based on 1,273 interviews. The maximum margin of sampling error is plus or minus 3 percentage points. Copyright at all times remains with NEWSPOLL.
